

Dear Supporter,

The White House just released a list of “immigration principles and policies,” the foundation for Trump’s plans for immigrants in the United States, and it’s sickening. **It reads like a white supremacist wish list**, demonizing immigrants and attacking communities of color.

Trump keeps pushing a white supremacist agenda, and we need to fight him every step of the way. **Call the White House comment line at 888-907-5441 and tell them that Trump’s attacks on immigrants are unacceptable.**

At a moment when Trump should be working with Congress to secure protections for 800,000 young Americans at risk of losing their DACA status after he terminated the program, here’s what Trump is doing instead:

- Demanding money to build his expensive and ineffective border wall.
- Demanding money to hire 10,000 more ICE agents who will ramp up detentions and deportations that tear families apart.
- Attacking the sanctuary cities that protect the members of their communities, harshly penalizing them if they don’t comply with his new rules.
- Cracking down on the undocumented workers that help revitalize America’s economy (while he, his children, and other wealthy CEOs continue to ship good jobs overseas).

Trump doesn’t care about the real contributions immigrants make to our economy, and he doesn’t care about the families and communities he’s destroying with his harsh enforcement practices. But we won’t let him do this. And if we stand together, we will win, because love will always triumph over hate.

Let’s flood the White House comment line today. Call 888-907-5441 and tell Trump that you reject his principles of hate.

Thanks for taking action,

Donna De La Cruz Reform Immigration FOR America
