1. The plan is designed to stop illegal immigration by adding 400 miles of fencing and other security enhancements, and improve screening to stop the smuggling of human beings and drugs through legal ports of entry along the southern border. Do you support or oppose these proposals to improve security along the border?

		Frequency	Percent	Valid Percent	Cumulative Percent

Subsets have a larger margin of error than the whole data set. As a rule we do not rely on the validity of very small subsets of the data, especially sets smaller than 50-75 respondents. At that size subset we can make generalizations, but in these cases the data is more qualitative than quantitative

2. The President says his plan will restore the integrity of our broken asylum system by preventing migrants from making fraudulent claims and being released into the country. He says those with legitimate claims will quickly be admitted; if they're not, they will promptly be returned home. Do you support or oppose this part of the plan?

		Frequency	Percent	Valid Percent	Cumulative Percent

	Total	506	100.0	100.0	

4. Currently, about 66 percent of immigrants are admitted to the United States based on having relatives, including extended family members, in this country. Only about 12 percent are admitted based on their job skills and education. Do you support or oppose the recommendation that we give greater preference to immigrants with needed skills, and limit family-based immigration to spouses and minor children?
